

**WEEKLY REPORT  
Region 9  
Environmental Protection Agency  
December 5, 2016**

**The week of November 28, 2016**

**Moffett Field:** The Department of Justice signed a Bona Fide Prospective Purchaser Doing Work Agreement between EPA Region 9 and Planetary Ventures, LLC, the real estate arm of Google, Inc., for proposed removal work at Hangar 1 at the NAS Moffett Field Superfund Site. Among other terms, the Agreement requires PV to conduct a pilot removal study, implement a removal action if selected by NASA (the site owner), and pay EPA's Oversight Costs. The Agreement will be published in the Federal Register for a 30-day comment period before it becomes effective. (Dreyfus x23886).

**Navajo Generating Station Federal Implementation Plan:** Attorney Client Privilege (b) (5)

(Lyons x23883).

**San Ysidro Air Study:** We and ORD hosted a webinar about the San Ysidro air study, a collaborative effort among government, academia, and community residents to establish a network of low-cost "next generation" air monitors in San Ysidro, an area of San Diego just north of the U.S. Mexico Border. The study, which was initiated in response to community concerns about cross-border air quality impacts, will generate information about neighborhood-scale pollution impacts, inform future efforts to reduce impacts, and provide air pollution data on the border region for California's environmental screening tool, CalEnviroScreen. (Reyes x23795)

**Environmental Justice Collaborative Problem-Solving Cooperative Agreement Press Event:** Together with CA DTSC, we held an event at a nail salon in Alameda to announce the award of the Environmental Justice Collaborative Problem-Solving Cooperative Agreement to Asian Health Services of Oakland and its project partners. Asian Health Services will receive \$120,000 to reduce chemical workplace exposures affecting local nail salon workers. The project involves training nail salon workers and owners about healthy practices related to chemical exposure reduction and proper hazardous waste disposal methods. (Hoang x23147)

**Public Hearing:** On November 30, we hosted a public hearing on our draft general permit for gasoline dispensing facilities (GDFs), such as gas stations, located in Indian country within California. We have proposed to establish a uniform set of requirements that will streamline EPA's permitting of gas stations and complement the requirements for gas stations already in place on non-tribal lands in California. (Beckham x23811)

**Los Angeles Office Lease:** Deliberative Process (b) (5)

**LEED Platinum CI Awarded for Building Project:** The US Green Building Council has awarded LEED Platinum for Commercial Interiors for Region 9's renovation project. This award, along with the prior LEED Platinum for Existing Building and Operations & Maintenance, results in R9 occupying a double LEED Platinum building, the only Regional Office with this rating.

**The week of December 5, 2016**

**CIO Visit to R9:** EPA CIO Ann Dunkin will visit R9 on December 5 to conduct the annual FITARA IT Review.

**Wetlands elevation for Specific Plan in Northern California:** Deliberative Process (b) (5)

(Morgan x2-3309)

**Listening session with students:** Deborah Jordan, Kathleen Johnson, and Tomás Torres will meet with high school students from a cross-section of Los Angeles-area schools to discuss their environmental concerns, priorities and questions. We worked with CA Safe Schools, a consortium of NGOs focused on ensuring healthy environments at LA schools, to arrange the session. (Leonido-John)

**Edwards AFB:** Air Force managers will host an informational tour of Edwards AFB on December 7. Four officials from EPA's Federal Facilities Restoration and Reuse Office will join Region 9 and State managers for the tour, whose purpose is to provide a better understanding of the range of conditions and challenges at this base in the Mojave Desert. (Mayer x2-3176)

**El Centro Residential Lead Site:** Enforcement (b) (7) (A)

(Powell 562-733-0316)

**Imperial Valley Air District New Source Review (NSR) Rule:** Deliberative Process (b) (5)

Yannayon x23534)

**Mariposa - Attainment of 2008 Ozone Standard:** Deliberative Process (b) (5)

(Levin x23848)
